Announcement Regarding Evaluating Investment Opportunities- Fintur

Subject: Statement made pursuant to Communiqué II-15.1 of the Capital Markets Board

TeliaSonera, which is one of Turkcell's major shareholders and also Turkcell's partner in Fintur through a 58.55% stake, announced today its initiation of a process about its Eurasian assets with the ultimate aim of complete exit.

In line with our growth strategy in the region and as the minority (41.45%) shareholder in Fintur (includes Kazakhstan, Azerbaijan, Georgia and Moldova), in order to explore our strategic options to acquire the remaining stake in Fintur, we have initiated the process to appoint a strategic and financial advisor.
